24 of notarial acts with respect to electronic records may not require, or accord greater
25 legal status or effect to, the implementation or application of a specific technology or
26 technical specification.

27 * **Sec. 10.** AS 44.50 is amended by adding a new section to read:

28 **Sec. 44.50.075. Notarial act performed for remotely located individual.** (a)

29 A remotely located individual may comply with AS 44.50.062(5)(A) by using
30 communication technology to appear before a notary public.

1 communication technology for a remotely located individual if

2 (1) the notary public has

3 (A) personal knowledge of the identity of the individual;

4 (B) obtained satisfactory evidence of the identity of the
5 remotely located individual by oath or affirmation from a credible witness
6 appearing before the notary public under AS 44.50.062(5)(A); or

7 (C) obtained satisfactory evidence of the identity of the
8 remotely located individual by using

10 (ii) a credential analysis of the identification card
11 described in (i) of this subparagraph; in this sub-subparagraph,
12 "credential analysis" means a form of identity proofing by which a third
13 person affirms the accuracy of a government-issued identification card;
14 and

15 (iii) at least one type of identity proofing;

16 (2) the notary public is able reasonably to confirm that a record before
17 the notary public is the same record in which the remotely located individual made a
18 statement or on which the individual executed a signature;

19 (3) the notary public, or a person acting on behalf of the notary public,
20 creates an audiovisual recording of the performance of the notarial act; and

21 (4) for a remotely located individual located outside the United States,

22 (A) the record

23 (i) is to be filed with or relates to a matter before a
24 public official, court, governmental entity, or other entity subject to the
25 jurisdiction of the United States; or

26 (ii) involves property located in the territorial
27 jurisdiction of the United States or involves a transaction substantially
28 connected with the United States; and

29 (B) the act of making the statement or signing the record is not
30 prohibited by the foreign state in which the remotely located individual is
31 located.

1 (c) If a notarial act is performed under this section, the notarial certificate
2 required under AS 44.50.060 must state that the notarial act was performed using
3 communication technology. A statement is sufficient if it states substantially as
4 follows: "This notarial act involved the use of communication technology."

5 (d) A notary public, guardian, conservator, or agent of a notary public, or a
6 personal representative of a deceased notary public shall retain the audiovisual
7 recording created under (b)(3) of this section or cause the recording to be retained by a
8 repository designated by or on behalf of the person required to retain the recording.
9 Unless a different period is required by regulation adopted under (f)(4) of this section,
10 the recording must be retained for a period of at least 10 years after the recording is
11 made.

12 (e) Before a notary public performs the notary public's initial notarial act
13 under this section, the notary public shall notify the lieutenant governor that the notary
14 public will be performing notarial acts with respect to remotely located individuals
15 and identify the communication technologies the notary public intends to use. If the
16 lieutenant governor has established standards under (f)(3) of this section or
17 AS 44.50.072 for approval of communication technology or identity proofing, the
18 communication technologies and identity proofing must conform to the standards.

19 (f) In addition to adopting regulations under AS 44.50.072, the lieutenant
20 governor may adopt regulations regarding performance of a notarial act under this
21 section. The regulations may

22 (1) prescribe the means of performing a notarial act involving a
23 remotely located individual using communication technology;

24 (2) establish standards for communication technology and identity

29 recording created under (b)(3) of this section.

30 (g) Before adopting, amending, or repealing a regulation governing
31 performance of a notarial act with respect to a remotely located individual, the

1 lieutenant governor shall consider

2 (1) the most recent standards regarding the performance of a notarial
3 act with respect to a remotely located individual adopted by national standard-setting
4 organizations;

5 (2) standards, practices, and customs of other jurisdictions that have
6 laws substantially similar to this section; and

7 (3) the views of other governmental officials and entities and other
8 interested persons.

9 (h) By allowing its communication technology or identity proofing to facilitate
10 a notarial act for a remotely located individual or by providing storage of the
11 audiovisual recording created under (b)(3) of this section, the provider of the
12 communication technology, identity proofing, or storage appoints the lieutenant
13 governor as the provider's agent for service of process in any civil action in this state
14 related to the notarial act.

23 **Sec. 44.50.078. Journal.** (a) A notary public shall maintain a journal in which
24 the notary public chronicles all notarial acts that the notary public performs under
25 AS 44.50.075. The notary public shall retain the journal for 10 years after the
26 performance of the last notarial act chronicled in the journal.

27 (b) A notary public may create a journal on a tangible medium or in an
28 electronic format. A notary public shall maintain at least one journal in a tangible
29 medium to chronicle all notarial acts described in (a) of this section. A notary public
30 may maintain one or more journals in an electronic format to chronicle all notarial acts
31 described in (a) of this section. If a journal is maintained in an electronic format, the

1 journal must be in a permanent, tamper-evident electronic format complying with the
2 regulations of the lieutenant governor under AS 44.50.072.

3 (c) A notary public shall make an entry in a journal contemporaneously with
4 performance of the notarial act, and an entry must contain the following information:

5 (1) the date and time of the notarial act;

6 (2) a description of the record, if any, and type of notarial act;

7 (3) the full name and address of each individual for whom the notarial
8 act is performed;

9 (4) if identity of the individual is based on personal knowledge, a
10 statement to that effect;

11 (5) if identity of the individual is based on satisfactory evidence, a
12 brief description of the method of identification and the identification credential
13 presented, if any, including the date of issuance and expiration of the identification
14 credential; and

15 (6) the fee, if any, charged by the notary public.

16 (d) If a notary public's journal is lost or stolen, the notary public shall
17 promptly notify the lieutenant governor upon discovering that the journal is lost or
18 stolen.

19 (e) Upon resignation from, or revocation or suspension of, a notary public's
20 commission, the notary public shall retain the notary public's journal in accordance
21 with (a) of this section and inform the lieutenant governor where the journal is located.

22 * **Sec. 12.** AS 44.50 is amended by adding a new section to read:

23 **Sec. 44.50.145. Notification regarding performance of notarial act on**
24 **electronic record; selection of technology; acceptance of tangible copy of**
25 **electronic record.** (a) A notary public may select one or more tamper-evident
26 technologies with which to perform notarial acts with respect to electronic records. A
27 person may not require a notary public to perform a notarial act with respect to an
28 electronic record with a technology that the notary public has not selected.

29 (b) Before a notary public performs the notary public's initial notarial act with
30 respect to an electronic record, a notary public shall notify the lieutenant governor that
31 the notary public will be performing notarial acts with respect to electronic records

1 and identify the communication technology the notary public intends to use. If the
2 lieutenant governor has established standards for approval of communication
3 technology under AS 44.50.072 or 44.50.075, the technology must conform to the
4 standards. If the communication technology conforms to the standards, the lieutenant
5 governor shall approve the use of the communication technology.

6 (c) A recorder may accept for recording a tangible copy of an electronic
7 record containing a notarial certificate as satisfying any requirement that a record
8 accepted for recording be an original, if the notarial officer executing the notarial
9 certificate certifies that the tangible copy is an accurate copy of the electronic record.

10 * **Sec. 13.** AS 44.50 is amended by adding a new section to read:

11 **Sec. 44.50.165. Validity of notarial acts.** The failure of a notarial officer to
12 perform a duty or meet a requirement specified in this chapter does not invalidate a
13 notarial act performed by the notarial officer. The validity of a notarial act under this
14 chapter does not prevent an aggrieved person from seeking to invalidate the record or
15 transaction that is the subject of the notarial act or from seeking other remedies based
16 on a law of this state other than this chapter or a law of the United States. This section
17 does not validate a purported notarial act performed by an individual who does not
18 have the authority to perform a notarial act.

20 **Sec. 44.50.185. Relation to Electronic Signatures in Global and National**

22 (Electronic Signatures in Global and National Commerce Act) but does not modify,
23 limit, or supersede 15 U.S.C. 7001(c) or authorize electronic delivery of any of the
24 notices described in 15 U.S.C. 7003(b).
